

STP® XTEND HIGH MILEAGE EXTENDED LIFE ANTIFREEZE

TECHNICAL DATA

Since 1954, STP® has been the premier American Brand Name for automotive additives, lubricants and performance products in the USA. STP® XTEND HIGH MILEAGE Antifreeze/Coolant Ready-To-Use is an advanced formulation that meets or exceeds ASTM requirements. This premium ethylene glycol-based engine coolant is free of phosphates, borates, nitrites, silicates, and amines. It protects all cooling system metals including aluminum, as well as rubber hoses, gaskets and plastics and contains 65% more corrosion inhibitors* than other extended life antifreeze/coolants on the market. Recommended for initial fill or top-off in all makes and models of foreign and domestic cars and light duty trucks over 75,000 miles, providing for maximum protection in vehicles that need it most.

Performance, Features & Benefits:	<ul style="list-style-type: none"> • 65% more inhibitors* to protect your older vehicle's engine • For cars and light duty trucks with over 75,000 odometer miles • Protects against winter freezing and summer boil over • Free of phosphate, borates, nitrites, silicates, and amines • Compatible with any antifreeze/coolant, regardless of color • Protects against corrosion of all cooling system metals
